POINT OF SALE

™ PAR (Pay)

Transforming

Payments

A SECURE PAYMENT GATEWAY FOR EMV CREDIT, EMV DEBIT, AND GIFT CARDS.

Bold, Innovative Payment Solutions

GUESTS PAY HOW THEY WANT; SECURELY, FAST, AND RELIABLY.

PARTM Pay offers restaurants the freedom to choose the best payment device, best payment processor, and best gift card processor based on their unique business requirements.

Secure

PAR Pay devices use P2PE (Point-to-Point Encryption) at the point of swipe or dip and are PCI certified. PAR Pay is also PCI-DSS and PA-DSS certified and PAR Pay devices comply with the latest PCI PTS security standards.

Data Driven

Get a single, unified view of payment transactions, providing insightful analytics and administrative capabilities. Restaurants have access to transactions, statistics, settlement, reconciliation, and other reports.

Works with Brink POS®

With Brink POS, PAR Pay offers restaurants a secure end-to-end payment processing solution. Restaurants are serviced through a single point of support.

Contactless

Works with Apple Pay, Google Pay, and Samsung Pay.
