

Technology That Elevates Hospitality

Powered by HP. Enabled by ReSource POS.

Deliver faster service, cleaner interactions, and more reliable operations with HP's Engage product family— supported, deployed, and serviced by ReSource Point of Sale, an **HP-certified repair center**.

Guests expect **speed, cleanliness, and frictionless experiences.**

HP designed the Engage line to thrive in demanding, high-touch environments such as restaurants, hotel kiosks, grab-and-go markets, and guest-facing service points.

Where ReSource POS Comes In

The Hospitality Experience, Transformed

As a certified HP repair center, ReSource POS ensures every HP device we deploy keeps your operation moving smoothly, from the moment guests arrive to the moment they check out. Together, HP and ReSource POS help your teams welcome guests with:

- faster check-ins
- shorter lines during rush periods
- safer, cleaner touchpoints across your property.

With dependable uptime and expert support behind every unit, your POS systems stay reliable even in your busiest hours. Digital ordering becomes seamless, and every interaction feels modern, effortless, and premium, reflecting the experience today's guests expect.

Learn how to deploy durable, secure, and guest-ready technology across your retail or hospitality venue.
